The Earlybirds Story...

Earlybirds was established in Australia in 2002. The concept was created following the birth of our son who was ten weeks premature, weighing 2.8Ibs. We experienced enormous difficulty finding clothes to fit him during his first few months. To alleviate this problem for other parents, we decided to develop a range of clothing specifically for premature and small babies.

Earlybirds Organic collection is made from 100% certified organic cotton. Free from harmful chemicals, this organic cotton guarantees softness and safety for your baby's fragile skin.

Enjoy the purity of Earlybirds beautiful organic cotton.

Lynda Day
